WORK EXPERIENCE	EDUCATION
NETSMART 2025 –Present	**NEW HORIZON COLLEGE OF ENGINEERING** Bachelor of Engineering, Computer Science
INFOSYS (DANSKE BANK) 2023 –2025	2015 – 2019
DANSKE BANK 2019 –2023	**NEW HORIZON PU COLLEGE** 2013 - 2015

PROJECT HIGHLIGHTS

- **Cards System**: Developed and enhanced Corporate Cards APIs using .net core for implementing new features such as card block, unblock, and card reordering.
  Modernized frontend screens for card block and reorder functionalities, ensuring a seamless user experience using ReactJS.
- **Xpender**: Spearheaded end-to-end development of an onboarding process for a cutting-edge expense management system, empowering corporate cardholders in Denmark. Ensured top-notch quality through meticulous code organization, adherence to best practices, and utilization of ReactJS, OpenShift, and AzureDevOps.
- **Danske Connect an OCAT:** Contributed to the development of feature-rich Angular JS components for the Desktop Electron Application and leveraged React JS skills to create compelling features for a web-based application.
- **Swish**: Unleashed creativity by designing an immersive UI using Adobe Illustrator and implementing screens with Angular JS.
- **Zenegy Widgets**: Demonstrated expertise in React JS and Redux by designing and developing 8 visually stunning and highly functional widgets. Recognized as the Star of the Quarter for exemplary project management, confidence, and leadership. Achieved outstanding customer satisfaction by delivering intuitive software that exceeded expectations and built a robust API provider for Zenegy widgets, utilizing the power of Node JS

CERTIFICATIONS

Meta Frontend developer

KEY SKILLS

- Proficient in ReactJS, NodeJS, HTML5, Typescript, CSS, C#, git, webpack, redux, Jest, Cypress, Web Content Accessibility Guidelines and Performance optimization.
- Agile Methodologies advocate, driving efficient and collaborative development with JIRA and Confluence.
